

Please do not overturn the New Jersey Do Not Call law.  
Telemarketing calls are nothing more than harassment especially to a disabled person such as me. Before this law was enacted I received over 20 calls a day with some companies calling more than 5 times in a single day despite my urging them to remove me from their list. This law has given me back my privacy. Telemarketing calls are an intrusion on that privacy especially when they target their calls around dinner time and just before bedtime at 10:00pm. Thank you.
